

PIG™ 1-Drum Soft Side Spill Berm

PAK903 Ideal For Portable Drum Containment, 2.5' x 2.5' x 4", 6 gal. Sump Capacity

Portable Soft Side Berm contains leaks and spills from stored containers, and you don't need a ramp to load drums!

- 4"-high foam sidewalls eliminate the need for expensive and bulky ramps; drive over walls with a drum truck and they spring back into place
- Heavy-duty, 22 oz. vinyl provides resistance to tears, punctures and chemicals
- Lightweight, portable unit folds up for easy transport and sets up in seconds
- Low-cost alternative to hard plastic pallets and decks
- Removable polyethylene grate keeps drums out of liquid and protects fabric
- Perfect for temporary storage of drums, machine parts, tanks and generators or as washdown pad
- Helps you meet hazardous waste containment regulations (depending on the size of containers stored)
