

PIG® Acid Solidifying Absorbent Powder

PLP501 Absorbs Acids, Absorbs up to 4 gal. per container, 4 containers

Solidifies absorbed acids and locks them into the material for easier cleanup.

- Permanently solidifies to "lock in" absorbed liquids; won't leak or revert to liquid state when handled or placed under pressure
- Environmentally friendly product absorbs acids and corrosives including phosphoric, sulfuric, hydrofluoric, hydrochloric and acetic acids as well as hydrazine
- Forms a solid mass without expanding for easier, less expensive recovery and cleanup; may help you comply with EPA requirements when used to solidify waste prior to shipment or landfilling
- High Btu value produces less than 0.1% ash content when burned; ideal for fuels blending and incineration
- Shaker bottle makes it easy to apply absorbent directly onto the spill area

Specifications

Fluid Absorbed	Acids
Color	White
Absorbency	Up to 16 gal. per box
Absorbency per	Up to 4 gal. per container
Brand	PIG
Unit Weight	4 lb.
Sold as	4 containers per box
Weight	19 lbs.
Composition	Co-Polymer Proprietary Blend
Application	Solidifying
UNSPSC	47131902
Pigalog® Page Number	Page 75

Metric Equivalent

Absorbency per	Up to 15.1 L per container
----------------	----------------------------

Absorbency

Up to 60.6 L per box

Weight

8.6 kg
