

PIG® Base Encapsulating/Neutralizing Loose Absorbent

PLP804 Bases, Neutralizing Capacity Up to 11 gal., 1 container

Neutralizes and encapsulates spills of bases and then changes color to let you know when it's safe to finish the clean-up.

- Encapsulates and neutralizes common base spills in one step; great for areas where chemicals are stored, mixed or transported
- Changes color on contact and during neutralization with liquid bases (pH above 7); color change continues until pH becomes neutral and is safe for handling
- Instantly absorbs up to 50% potassium hydroxide and other concentrated bases
- Gelling agents solidify base during neutralization and prevents it from leaching out

Specifications

Brand	PIG
Fluid Absorbed/Neutralized	Bases
Neutralizing Capacity	Up to 11 gal.
Unit Weight	40 lb.
Sold as	1 container
Weight	40 lbs.
# per Pallet	30
Composition	Polymer, Citric Acid, Thymol Blue
Application	Encapsulating & Neutralizing
UNSPSC	47131902
Pigalog® Page Number	Page 76

Metric Equivalent

Weight	18.1 kg
--------	---------

Disclaimers

[Base Absorbents Notice](#)

Avoid contact with metallic nitrates, cyanides, sulfides and strong oxidizers. Contact with sodium or calcium hypochlorite creates chlorine gas.

[HAZ-MAT Notice](#)

To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG® HAZ-MAT products prior to purchase. If you have any questions or need samples to test, please call Technical Services.
