

## PIG® Battery Acid Cleaner and Neutralizer Wipes

WIP700 Premoistened, 7" x 8", 30 wipers

These pop-up wipers change color to show that they've neutralized battery acid. Ideal for garages, battery storage areas and more.

- Pre-moistened Wipes are designed to neutralize battery acid residue while cleaning the surface of batteries, tools, work stations and small spills
- Wipes change color to indicate neutralization of acids; when wipe is completely colored, neutralizing ability is exhausted
- Durable plastic container with snap-tight lid neatly dispenses wipers individually while keeping the remainder clean and moist
- Ideal for garages, fleet centers, manufacturing sites, battery storage areas and more
- Want to try out a new wiper? Your satisfaction is always guaranteed with the PIG Promise... try a case risk-free!
