

## PIG® Collapse-A-Tainer® Self-Rising Spill Containment Berm

PAK1003 Ideal For Large Vehicles, Drive-Through, 14' W x 50' L x 1' H Sump, 5236 gal. Sump Capacity

Containment system can be staked down and provides easy drive-in access without having to manually fold up sidewalls when you drive out.

- Endwalls can remain folded down during normal use, but automatically rise with the liquid level when a leak occurs
- Heavy-duty hinges can be manually locked into place when snow, hoses or other heavy objects could prevent the flotation system from functioning
- Right-angle hinge design allows more unobstructed working space on interior of unit
- Brackets remain out of the way to avoid breakage from accidental impact or driveovers
- Folds to a compact size to let you store the system in a vehicle and transport it to a remote location; included strap secures unit in place
- Constructed of tough XR-5 geomembrane to resist the effects of harsh chemicals and UV exposure
- Grommets at each support hinge allow unit to be staked to the ground when needed
- Ideal under storage tanks, tote tanks, pillow tanks, pallets loaded with drums and more
- Custom sizes and colors available; call 1-800-HOT-HOGS (468-4647) for details
