

PIG® Poly IBC Spill Containment Pallet

PAK735 Holds (1) IBC, 63" x 63" x 27", 360 gal. Sump Capacity

You can't buy a stronger pallet to store your totes in compliance. PIG is the toughest on the market.

- Strong enough for long-term storage of IBCs, this innovative design transfers weight to load bearing channels to maximize capacity
- Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep storage areas clean
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating holds a variety of IBC sizes; lifts out for easy access to sump
- Low profile for easy access to and dispensing from IBC tanks
- Two-way forklift entry allows movement from either direction when not loaded
- Optional .75" drain plug lets you empty sump without removing drums or grating
