

## PIG® Poly Modular Spill Deck

PAK529 Holds (2) 55 gal. Plastic or Steel Drums, 26" x 52" x 5.75", 22 gal. Sump Capacity

Connectable, shared-sump decks let you build up to your required sump capacity to help meet containment regs.

- Patented "flow-through" sump design lets liquid pass freely from one sump to another to help you comply with containment regulations
- Modular design features exclusive bulkhead fittings and predrilled ports to connect to other decks; ready to use as soon as they arrive
- Mix and match the sections you need to fit your space and help meet sump capacity requirements
- Special tools and hardware to connect sections is included with each system
- Low-profile 5.75"H design is easy to load or unload; pumps and funnels are easy to access
- Molded-in sump catches leaks, drips and spills to help keep your storage areas clean and safe
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating adds traction and lifts out for easy sump access
- Translucent white sidewalls allow easy visual inspection
- We test all of our Containment Pallet designs at max load for months to ensure they can handle full capacity at your facility

### Specifications

|                              |   |
|------------------------------|---|
