

Training

PIG® Response Tactics for Hydraulic Spills on Soil

TRN101 For Beginner; Intermediate, 20 Minutes, Online (Login details emailed to you within 24 hours)

Teach your workers the right way to respond to hydraulic hose bursts, fitting failures and other spills in the field.

- New Pig knows safe, compliant workplaces like nobody's business! Learn from the leader to help protect your workers, your facility and the environment
- Original content presented in easy-to-understand ways — no regulation-ese!
- Written and designed to keep workers awake and engaged for high retention and on-the-job action
- Topics covered include hydraulic spill response on soil and other permeable surfaces, stopping the flow of hydraulic spills, creating soil containment areas, removing contaminated soil, hydraulic spill cleanup, securing the spill area, assessing soil condition, reporting spills on soil and UV dyeing hydraulic oil for spill response
- Runtime is broken into short modules lasting 1 to 3 minutes each; fast-paced training that's informative, educational and entertaining
- State-of-the-art 3D animation shows real-world tactics that apply to everyday workplace applications
- Automatically adapts to play on any computer, projector, tablet or smartphone regardless of your connection speed
- Quizzes keep end users engaged as they work toward their certificate of completion (one certificate per user license)
- Online training is offered with structured pricing for organizations of all sizes
- Login details will be emailed to you within 24 hours of ordering
- Our No Guff Guarantee™ will refund every single penny if you're not completely satisfied with any PIG Training course
