

## PIG® Super Absorbent Pillow-In-A-Pan

PAN204 Absorbs Oils, Coolants, Solvents, Water – Universal, Absorbs up to 1 gal. per each, 24 each

Absorb and reclaim liquids with wringable pillow while pan captures any run-off.

- Durable, low-profile pan slides underneath machinery and into other tight spaces; acts as a barrier to contain liquids
- Pillow has large surface area, high capacity and fast-wicking filler to quickly soak up liquids
- Extra-tough, stitch-bonded polypropylene skin resists bursting for use in a wringer or other demanding applications
- Cellulose filler is highly absorbent for long-term use or big spill cleanup
- Ideal for absorbing nuisance drips from leaking spigots, flanges, machinery and pipes
- Absorbs most common industrial liquids - oils, water, solvents, coolants; not recommended for acids, bases or other corrosive liquids
- Wringable for reclaiming absorbed liquid
- Recycled content is ideal when green products are desired or required
- Can be incinerated after use to reduce waste or for fuels blending
