

Pump Kit for PIG® Waste Compactor

DRM345 For Waste Compactor

Use with PIG® Waste Compactor to remove liquids separated from spent PIG® Absorbents.

- Air-operated, non-metallic, double-diaphragm pump efficiently and continuously moves up to 5 gallons per minute
- Long PVC suction wand gives easy access inside compactor
- Holster safely stores wand within easy reach
- Hose is clear for monitoring liquid intake and extra long for discharging fluids into approved waste container
- Guard filters out debris, metal shavings and other particulates to extend life of pump
- Adjustable ball valve for air inlet lets pump run off same airline as compactor
- Includes bracket and hardware for convenient mounting of Pump Kit
- Durable, powder-coated steel resists corrosion
